

INSTITUTE OF FERTILITY MEDICINE (IFM), LASUTH

About the Institute of Fertility Medicine (IFM)

When it comes to fertility care, you want a team that is highly qualified, professional and experts in their field. You want the best.

Bridge Clinic is Nigeria's most sought-after fertility clinic. With a dedication to recruiting only the best personnel, a commitment to international standards and through ongoing investment in facilities and equipment, Bridge Clinic has grown from strength to strength.

In 2011, Bridge Clinic formed a partnership with the Lagos State University Teaching Hospital (LASUTH) to set up the Institute of Fertility Medicine in the Department of Obstetrics and Gynaecology. Our purpose is to provide the highest quality fertility care to socio-economically challenged families in Lagos State.

*The combined expertise of LASUTH and Bridge Clinic at the Institute of Fertility Medicine have helped in birthing **almost 100** babies since inception.*
